Portfolio

Summary

Frontend Developer skilled in **React.js**, **JavaScript (ES6+)**, **Redux Toolkit**, **HTML5**, **CSS3**, and responsive web applications. Built reusable SPA interfaces with REST API integration, asynchronous state handling, and component-based architecture using Tailwind CSS and modern frontend workflows in fast-paced development environments.

Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux Toolkit, React Router, Context API, Tailwind CSS, Framer Motion

Tools & Concepts: Git, GitHub, Vercel, REST APIs, Async/Await, Closures, Debouncing, Error Boundaries, React Portals, Dark Mode Theming, Keyboard Accessibility, Performance Optimization, Cross-Browser Compatibility, Responsive Design

Soft Skills: Effective Communication, Time Management, Multi-tasking, Troubleshooting, Collaboration

Projects

OwnDocs — Notes & Task Manager | *React.js, Tailwind CSS, Framer Motion* | [Live](#) **Aug 2025 – Present**

- Architected a **production-minded, frontend-only SPA** with PIN-protected content locking and an app-wide **Error Boundary**, so a single component failure degrades gracefully instead of crashing the app.
- Built a reusable component system (15+ components) with **Context API** for Notes and Tasks state, eliminating prop drilling across pinning, soft-delete/restore, and locking features.
- Implemented **debounced real-time search**, cutting unnecessary re-renders by ~70% while building **dark mode** from scratch with a persisted, class-based ThemeContext.
- Developed an animated tab switcher with **Framer Motion** shared-layout animation, **React Portal**-based modals, and a global keyboard-shortcut layer for fast navigation.

MusicX — Music Player App | *HTML5, CSS3, JavaScript (ES6+)* | [Live](#) **Nov 2024 – Dec 2024**

- Engineered a **Spotify-inspired responsive Music Player** with pixel-perfect UI ensuring cross-browser compatibility across all major browsers.
- Implemented **play/pause, next/previous, real-time progress tracking**, and real-time song loading with zero external libraries.
- Architected **real-time playlist rendering** with active song highlighting and auto-play using pure DOM Manipulation and JavaScript Events.
- Optimized **asset loading and rendering performance** achieving fast initial load time across all screen sizes.

Education

Bachelor of Computer Applications (BCA) **2021 – 2024**

I.P. (P.G.) College, Bulandshahr, U.P.

Intermediate (12th) – U.P. Board **2020 – 2021**

Vivekananda Saraswati Vidya Mandir Inter College

High School (10th) – U.P. Board **2018 – 2019**

Vivekananda Saraswati Vidya Mandir Inter College

ADDITIONAL INFORMATION

Languages: English, Hindi

Career Goal: "To grow as a skilled Full Stack Developer and contribute to impactful tech products."
